Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Student/Professional attending a networking event.	Start meaningful conversations and build professional connections.	I don't know how to begin conversations with new people.	I lack confidence and don't know enough about the event topics or other participants.	Nervous, hesitant, and worried about missing networking opportunities.
