

Scalability & Future Plan

Date	4 July 2026
Team ID	SWTID-2026-7566
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Local deployment only	Cannot be accessed remotely	High
2	JSON file storage	Not suitable for large-scale data	Medium
3	No user authentication	Limited security and personalization	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports local users	Deploy on cloud with load balancing
2	Data Storage	JSON files	Use MySQL or MongoDB
3	Performance	Runs on local machine	Optimize APIs and caching
4	Security	Basic validation	Add user authentication and HTTPS

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 2	Cloud deployment (AWS/Render)	1–2 Months	Remote access
Phase 3	User login & authentication	2–3 Months	Improved security
Phase 4	AI chatbot and multilingual support	3–4 Months	Better data management
